Technical Skills

- Programming Languages: Proficient in Java, Python, Bash, PowerShell, SQL
- Cybersecurity: Command Line, Wireshark
- General: Microsoft Office Suite, Google Suite

Education

Hampton University

May 2026

Bachelors of Science in Cyber Security on Computer Science Track

Relevant Coursework

- Data Structures 1, Calculus, Risk Management, Computer Viruses and Malicious Software, Introduction to Cybersecurity, Intro to Artificial Intelligence

Relevant Experience

Software Engineer Intern, Woodward Inc

May 2025 – August 2025

- Developed a user-friendly read graphical user interface (GUI) to streamline fault analysis and improved usability for team members.
- Collaborated with software engineers to gather requirements to integrate the tools into existing workflow.
- Improved the Fault Diagnostic Tool efficiency by automating the parsing and visualizing of binary data, which reduced the manual analysis by 90%

Teacher Assistant, Hampton University

September 2022 – May 2026

- Spending 10 hours a week to help students for one-on-one or group sessions, assisting students in learning basic Java.
- Provided hands-on support during lab sessions with debugging and guiding students through programming concepts.
- I previously helped tutor multiple students using Microsoft Office, which consisted of Word, PowerPoint, and Excel.

Projects

Formula 1 Marketplace

Summer 2026

- Created a Formula 1 clothing and merchandise online store with Python/Flask, React, MongoDB and PostgreSQL.
- Used Bcrypt password encryption, JWT authentication and REST API CRUD to allow for secure management of users and items.
- Utilised Docker for database and used Thunder Client for API testing and debugging.

Smart Library

Fall 2025

- Developed a full-stack application (GUI) for library inventory and routing utilizing Java.
- Implemented Dijkstra's algorithm on a custom Weighted Graph to compute the optimal shortest path for inventory. Custom Balance Search Tree to manage ordered catalog listings and prioritize inventory availability.

Extracurriculars

- Cyber Security Club (Community & Public Relations Program Chair)
- National Society of Black Engineers – General Member

Certification

- CompTIA Security+ Certification
